

**Dreaming of faraway places?
Would space be far enough?**

Astronomical centre Rijeka

observatory and digital planetarium

In addition to its regular programme in Croatian, the Astronomical Centre Rijeka features a special summer programme every Wednesday at 10 p.m. for tourists in foreign languages.

**A S T R O
N O M I C A L
C E N T R E
R I J E K A**

- the first and only centre in Croatia with both an observatory and a digital planetarium
- the only digital planetarium in Croatia and in the wider region
- the winner of the special prize in the "Tourist Offer or Amenity" category
- the Rijeka planetarium is a member of the International Planetarium Society (IPS)
- it is entirely suitable for the disabled

Other contents:

- a park with Submediterranean vegetation
- an Early Baroque church
- Illyric ruins
- a café
- a walking path

Programme for tourists in foreign languages

Vibrato, *a journey through space in a virtual reality simulator - 40 min in French (July 5th till 30st July).*

Vibrato is the echo of space. Intended for Science Fiction lovers and those who like to gather new experiences, Vibrato takes you on an unforgettable journey beyond space and time, in a virtual reality simulator.

La corsa sulla Terra, *a 30 min animated feature in Italian (August 2nd till September 3rd).*

This is a fun animated film introducing us to the empires of Gasmoonia and Karmoonia and unveiling whether the inhabitants of the Moon are going to succeed in the historic adventure of making a space ship and landing it on Earth.

Planets in Sight, *a 35 min astronomical documentary classic in English (September 6st till October 1st).*

Intended for wider public, this film takes us on an unforgettable journey to the very beginnings of our solar system thanks to breathtaking panoramic images. We will go planet-hopping to learn about their distinctive features, their moons, asteroids and comets.

*recommended for all ages (children aged 6+)
