

### Summer programme at Astronomical Centre Rijeka:

- screenings in English for tourist every Wednesday from July 15 to September 2
- in July (on 15, 22 and 29 July), the programme will feature a classic work of popular astronomy **Planets in Sight**,
- in August (on 12, 19 and 26 August) and on September 2, a popular video show on the history of the telescope called **Two Pieces of Glass**.

Show time in the planetarium is scheduled for **21h**. After the show the visitors can tour the observatory and have a look at the stars through the telescope (weather conditions permitting).

### Summary of video shows:

**Planets in Sight**, documentary – a classic work of popular astronomy (a 3D video animation – 33 minutes)

Designed for wider public, this film takes us on an unforgettable journey to the very beginnings of our solar system thanks to breathtaking panoramic images. We will go planet-hopping to learn about their distinctive features, their moons, asteroids and comets...

**Two Small Pieces of Glass**, an award winning documentary story on history and develop-

ment of the telescope (film + 3D video animation – 30 minutes)

Aimed at the young and wider public, this film explores the Galilean moons, Saturn's rings, spiral structure of galaxies, and many other discoveries these tools have made throughout the history of astronomy. How does a telescope work? How do the largest observatories in the world use these instruments to explore the mysteries of the universe? What are the challenges of the latest generation of observatories? Soundtrack performed by the renowned London Symphony Orchestra.

### Features:

- the largest project of technological culture in Croatia
- the only European astronomy centre located within city bus routes
- the nearest similar centre is as far as in Milan and Vienna
- A special recognition received by the Tourist Association of the Primorsko-Goranska County as part of its action *Plavi cvijet*
